

The recent decision of Sinclair Broadcasting to force affiliated stations to air an anti-Kerry documentary days before the election is outrageous! This is a prime example of why media ownership rules must be strengthened. Sinclair is blatantly ignoring their obligation to the public and abusing their free use of public airwaves. Consolidated groups such as Sinclair tend to be more interested in their own profits, than in serving the needs of our democracy. How can we preach Democracy abroad, when the ability to exercise it at home is being diminished?

Media ownership rules must be strengthened and enforced! The license renewal process must involve more than a returned postcard. For the sake of our Democracy, please stop this kind of abuse by the media giants! Thank you.
